

A Patient who would share his/her thoughts on the service we provide with the Practice team.

We are running a Customer care training session for the Practice team on Thursday 20th September and what would really bring this to life would be for the team to hear direct from a patient about their experiences of the service we provide.

If you are interested and can spare 20 mins on this note please email our Practice Manager at wir-pct.egpfeedback@nhs.net and leave your contact details.
