This was a short meeting to discuss feedback from the Health Awareness Day held on 25th March and organised by both GP practice patient groups.

We have received positive feedback from people who attended and Organisations and Health Professionals.

Good opportunity to network with other groups.

Informative

Well organised

Well attended, over 100 public through the door

Lovely tea and cake

'Buzzing' atmosphere

Other comments

Not a lot of younger people attended

1st responder couldn't easily demonstrate the defibrillator unit due to lack of space

It was agreed we had a very good day, and that a letter be sent to the local press with a bit of info about the event.
